

A Room For All Seasons

WARM ROOF DIVISION

Replacement tiled roofs that will transform your conservatory into a functional and stunning space - a space meant for living in!

Transform your conservatory with the Warm Roof Division into an all year round living space. Our tiled roof systems undergo thorough testing and are subject to extensive research – producing a compliant, resilient product which is compatible with all roof styles. The lightweight frame, humidity-proof insulation and custom tiles are tailored to your existing conservatory frame and provide you with a welcoming living space free from wind and rain noise, leaks and extreme temperature fluctuations.

MODERN & STYLISH

GABLES

With a Gable-end Warm Roof, the front of the roof doesn't slope back to the centre. The Gable-Front of the Warm Roof adds style, maximises light coming into the room, all whilst the vaulted ceiling gives the room a feeling of space.

EDWARDIANS

Edwardian Warm Roofs have a rectangular floor to maximise on space. A vaulted ceiling creates the illusion of space above. A Warm Roof Division Edwardian becomes a blend of modern and traditional – making it ideal for a multitude of homes.

VICTORIANS

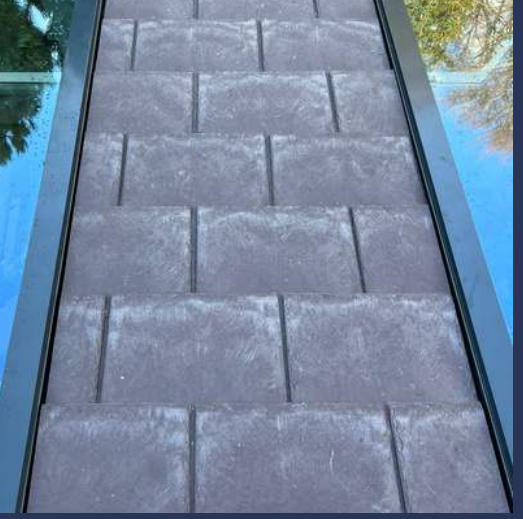

Victorian Warm Roofs are a period shape of a conservatory and can be found in both rural and urban homes. Sometimes referred to as Victorian sun-rooms, they offer vaulted ceilings with a faceted or rounded front appearance.

COMBINATIONS

A Combination Warm Roof offers flexibility based on your requirements, combining different styles of roof to fit the shape you need. Why not combine a Gable or Edwardian front with a Lean-To to give a B-shaped Warm Roof – or maybe you'd prefer a T or a P shape?

ORANGERIES

Orangeries will transform the look and appeal of your home. A Warm Roof Division Orangery is the most modern and efficient way for you to enjoy both the indoors and outdoors, whilst retaining a light and warm conservatory.

FINISHING TOUCH

Why not personalise your new found room with a touch of 'glass'? Glass panels are the perfect way to let natural light flow through the room. You can also create mood lighting inside and out with LED down-lights. All roofs are available in a Slate effect to give your roof that traditional look.
